

1.0 Requirements

- 1.1 Seller shall be in compliance with the current version of ISO9001 Quality Management System Requirements. Compliance shall be validated by any one of the following:
 - 1.1.1 Seller shall submit to Tampa Brass & Aluminum Corp. a current 3rd party certification to ISO9001, AS9100, AS9110, AS9120 or equivalent issued by a registrar that is accredited to an International Aerospace Quality Group (IAQG) or International Accreditation Forum (IAF) member, signatory or accreditation body or
 - 1.1.2 Tampa Brass & Aluminum Corp. may accept industry equivalent certifications issued from an IAQG or IAF accredited registrar to show compliance to this Quality Note.
 - 1.1.3 For sellers that have a Sales/Program Management office at a location other than the location listed on the above applicable certificate, the seller shall provide verifiable evidence that the locations are component parts of the same corporate entity.
 - 1.1.4 Seller shall support a Tampa Brass & Aluminum Corp. audit for compliance to the minimum requirement of an ISO 9001 Quality Management System.
- 1.2 Sellers not in compliance with the current version of ISO9001 Quality Management System Requirements may be validated by the completion of a Quality System Questionnaire and Onsite Audit at the discretion of the ISO Management Representative.
